OBJECTIVE

Seeking a full-time software development role where I can utilize my expertise in **React Native**, **MERN stack**, and **Cloud Technologies** to drive impactful projects, build scalable solutions, and contribute to the growth of a dynamic organization.

EDUCATION

Sri Krishna College of Engineering and Technology

Bachelor of Computer Science and Engineering
2022 – 2026

SKILLS

Mobile App Development: Proficient in **React Native** for cross-platform mobile app development.

Web Development: MERN Stack, **JavaScript**, **React.js**, **Node.js**, **Express.js**, Spring Boot (Java).

Cloud and Database: **Firebase**, **AWS** services, **MySQL**, and **MongoDB**.

Version Control: **Git** and **GitHub** for collaborative workflows and branch management.

Software Testing: Selenium with Java.

Security Tools: **Kali Linux** for penetration testing and vulnerability analysis.

Programming Languages: C++, Java.

EXPERIENCE

Flipkart

Executive Intern

Bengaluru, Karnataka

Sept 2025 – Present

- Designed and implemented an **automation script** using **Automa** to streamline the tracking of multiple shipments within the MH operations team.
- This script significantly **reduced time in tracking** and **saved substantial manpower** resources by optimizing logistics data analysis.
- Focusing on data analysis and performance optimization to enhance shipment tracking accuracy and operational efficiency.

Sainik HR

Full Stack Developer Intern

Remote

Jan 2025 – Aug 2025

- Developed and deployed a job-finding platform for ex-servicemen using **React**, **Node.js**, **MySQL**, and **AWS**.
- Configured **Nginx** for server deployment and ensured application scalability and backend performance.

Banao Technologies (ATGWorld Networks Pvt. Ltd)

React Native Developer

Bengaluru, Karnataka

Mar 2024 – Dec 2024

- Collaborated in an Agile sprint team, ensuring project milestones were delivered on time.
- Utilized **Git** for version control, branch management, and collaborative workflows.

Sri Krishna College of Engineering and Technology

Training Intern Associate

Coimbatore, Tamil Nadu

July 2025 – Aug 2025

- Conducted hands-on training sessions for first-year engineering students on C programming fundamentals.
- Designed coding exercises and guided students in problem-solving and algorithmic thinking.

PROJECTS

Deaf and Dumb Communication App (Winner at Smart India Hackathon 2024): Built an accessibility-focused mobile app (voice-to-text, text-to-voice, speech emotion analysis, SOS) to aid the deaf and mute community. The project was **judged and awarded by real members of the deaf and mute community**, who **recognized its potential for applying a patent and moving forward with the Ministry**.

Kerala Smart Waste Management App (Winner at Smart India Hackathon 2023): Designed a geo-enabled app for Kerala to book home cleaning services, earn redeemable incentives for garbage contributions, and support local businesses. The initiative was **formally appreciated by a representative from the Ministry of Kerala** for its practical and sustainable model.

RAG Chatbot (Winner at iamNeo Hack Sprint 2024): Developed a RAG-based chatbot using **LLaMA 3** and vector embeddings, integrated into a mobile app for IT document management workflows.

LEADERSHIP & EXTRA-CURRICULAR

Leadership.....

- **Mentor Winner** at Smart India Hackathon 2024, guiding a team to victory through effective leadership, proper guidance, and teamwork.
- **Mentor Winner** at Tamil Nadu Coders Premier League, securing internship opportunities for the mentored team members.

Extra-Curricular Activities.....

- Multiple Hackathon Winner: **Smart India Hackathon 2023 & 2024, iamNeo Hack Sprint 2024, and SpectraShift 2023.**
- Conducted part-time cybersecurity research and vulnerability detection using **Kali Linux** tools (including DDoS, phishing, and vulnerability testing).
